## Objective

Detail-oriented and enthusiastic Front-End Web Developer with hands-on experience in creating responsive, user-centric websites and interactive web applications. Skilled in HTML, CSS, JavaScript, and frameworks like Bootstrap. Looking to leverage my skills in front-end development to contribute to a dynamic team while continuing to grow as a developer.

---

## Education

### GESP Yabatech

*Front-End Web Development (ongoing)*

November/2024 – Till Date

- Gained a solid foundation in front-end web development, including HTML, CSS, JavaScript, and responsive web design principles.
- Developed multiple projects that helped hone practical skills in building modern, functional websites.

### Secondary School

*Bevy Genius Schools, Ogun State*

- Completed high school with a focus on Mathematics, Physics and Chemistry.

### Primary School

*Marpraise Schools, Ogun State*

- Completed primary education with a focus on foundational knowledge and skill-building.
- 

## Skills

- **Languages:** HTML, CSS, JavaScript
- **Frameworks/Libraries:** Bootstrap
- **Tools & Technologies:** Git, Chrome DevTools, Figma

- **Version Control:** GitHub
- 

## Projects

### **Real Estate Website** (November-December 2024)

- Developed a responsive website for users to browse property listings.
- Focused on creating an intuitive user experience using HTML, and CSS.

### **Skai.io Replica** (December 2024 - January 2025)

- Replicated the Skai.io website to practice creating modern, responsive, and visually appealing web pages.
- Focused on achieving pixel-perfect design and replicating interactive features using HTML, CSS, and JavaScript.

### **BMI Calculator** (February 2025)

- Developed a Body Mass Index (BMI) calculator using JavaScript to calculate BMI based on user input.
- Focused on clean, user-friendly design and interactive functionality, including form validation and error handling.

### **Travel Agency Website** (February 2025)

- Designed and implemented a website for a fictional travel agency, showcasing vacation packages and destinations.
- Integrated custom interactive elements such as booking forms and image sliders using HTML, CSS, and JavaScript.
